

SPORTS FACILITY AUDITOR

Program overview

FOUR SIMPLE BENEFITS

BUILD VENUE KNOWLEDGE

DRIVE STRATEGY

JUSTIFY INVESTMENT

CONNECT STAKEHOLDERS

SFA VISION

Create complete, current and accessible databases of sporting venues that drive venue planning, use and improvement programs, justify strategic investment and prioritise stakeholder resources through detailed venue and location intelligence.

SYSTEM FUNDAMENTALS

1. Locate

Upload existing site information and locate sites using GPS coordinates

2. Audit

In-field auditing using tablet based checklists and photo evidence

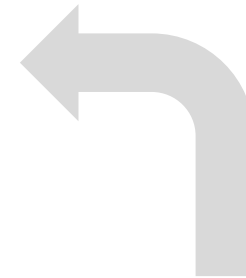

3. Analyse

Statistical analysis, graphs and Excel exports to analyse provision, capacity, compliance and risk

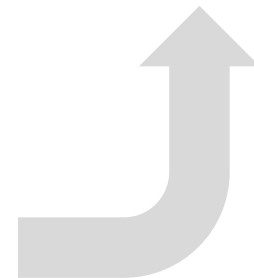

5. Prioritise

Utilise data and reporting to prioritise and advocate for resources

4. Report

Multiple reporting outputs with customised filters

WHY SFA?

- Helps all stakeholders to better understand existing assets
- Builds organisational knowledge and industry capacity
- Measures provision against requirements and standards
- Monitors and evaluates the changing facility landscape
- Local data capture that delivers national consistency in reporting and analysis
- Provides everything you need to know about your facilities
- Justifies and prioritises investment into facility renewal
- Live updating system that reports instantly
- It will transform the way facilities interact with location mapping intelligence systems
